

# Felipe Mora

## COMPUTER ENGINEER

### ABOUT ME

Hello, my name is Felipe Mora, passionate about problem solving, developing web and desktop applications and components. I enjoy learning new things, as I believe that's the most exciting part of my day-to-day work and what I'm truly passionate about.

### WORK EXPERIENCE

#### Junior Software Engineer

Flagare Company || April 2024 - Present

I perform functions as a front-end developer (mostly) driven by the Liferay CMS and backend functions with node, in addition to documentation.

#### Software Engineer Trainee

Flagare Company || December 2023 - March 2024

During this period I completed my professional internship, mainly creating front-end elements using native Liferay tools.

### PROJECTS

#### CCHC public and private web update

In this project I carried out a wide variety of requirements, both functional and visual (back-end and front-end), the ones I highlight are the operation of the first version of events (public), repair the carousels with Splide, PDF viewers in the private part, creation of mysql stored procedures and endpoint for the use of this same.

#### LATAM private web update

In this project, the private portal for LATAM employees was updated, displaying user benefits based on their country of origin and the country where the benefit applies. In this project, I was in charge of five React applications, gaining extensive experience in development with this technology.

### KNOWLEDGE

- Web Developer
  - Liferay
  - Freemaker (Java)
  - React
  - HTML
  - CSS
  - JavaScript
  - TypeScript
  - Node
  - Flask
  - Django
  - Python
  - Sqlite
  - MySQL
  - Figma (Basico)
- Teamwork tools:
  - Git
  - GitHub
  - Jira
- Languages
  - Advanced Spanish
  - Intermediate English

### EDUCATION

- Higher education  
Duoc UC Plaza Maipú Campus  
2020 - 2024 (Graduated)
- Secondary Education:  
Paula Jaraquemada High  
School (2016 – 2019)  
Complete.
