ABOUT ME

Proactive Computer Engineer with 1.5+ years of experience in full-stack web application development, specializing in React, Node.js, MySQL, and Liferay. Eager to leverage strong technical skills and a passion for learning to build scalable, impactful web solutions and contribute effectively to dynamic development teams.

WORK EXPERIENCE

Junior Software Engineer

Flagare — Mar 2024 – Apr 2025

- Web application development with a modular architecture.
- Maintenance and development on the Liferay platform (CMS) using React, Node.js, and MySQL.
- Use of agile methodologies and Git.
- Participation in public and private projects for clients in the construction and airline sectors.

Software Engineer Trainee

Flagare — Dec 2023 — Feb 2024

- Front-end development with React, HTML/CSS, and Litery.
- Participated in requirements gathering, testing, and component design.
- Worked in a team based on a modular architecture and agile approach.

PROJECTS

Public and private website update – CChC

- Participated in the design and implementation of front-end modules for internal and external portals.
- Used React and Litery CMS in environments with modular architecture and continuous deployment.

Private Web Update – LATAM

- Development and maintenance of more than 20 front-end modules for private information portals.
- Integration of reusable components and CMS configuration using Litery and React.

Commitment-Pro – Client Portal/QA

- Development of end-user-oriented components and QA.
- Focus on user experience, testing, and debugging.

KNOWLEDGE

- Programming languages
  - JavaScript
  - TypeScript
  - Python
  - HTML
  - CSS
- Frameworks and libraries
  - React
  - Node.js
  - Flask
  - Django
  - Freemaker (Java)
  - Liferay
- Data bases
  - MySQL
  - Sqlite
- Version control
  - Git
  - GitHub
- Methodologies
  - Agile methodology
  - Scrum
- Languages
  - Advanced Spanish
  - Intermediate English

EDUCATION

Graduate in Computer Engineering from Duoc UC, Plaza Maipú Campus, 2020-2024
